Neurodivergent Education &
Communication Experts

We know something isn't quite right...

The children who go under the radar.

A specialist session for school staff exploring internalised profiles and what might be underneath the surface.

A practical, thought-provoking session

Helen can come into your school to deliver a 2-hour session for staff, exploring the signs, possible underlying causes and practical strategies to support these pupils.

Can be booked into an existing staff meeting or training slot.

This could be relevant if your staff are noticing:

- Quiet, withdrawn or anxious pupils
- Perfectionism or high levels of self-criticism
- Emotional distress or school avoidance
- Children who appear to be coping but are struggling
- Behaviours that don't quite fit the picture

Sessions from £380

Please contact us to discuss your school's requirements.

Helen Mortimer

Consultant SEN Autism Specialist
Former Assistant Head,
Deputy Head & Head Teacher

The session will help staff consider:

- ✓ What might be behind a child's presentation?
- ✓ Could anxiety or emotional distress be masking other difficulties?
- ✓ Could there be an underlying neurodevelopmental difference?
- ✓ What might the child's behaviour be communicating?
- ✓ What practical support might help?
- ✓ When might further assessment or specialist support be appropriate?

*Look beyond the
behaviour.
Consider what
may be
underneath.*
